Ages 5 – 8; 9:00 am - 11:30 am

Exploring Nature Session 1 May 30 – June 3

Paint in the garden, explore famous landscapes, and learn about art from ancient cultures. Children will explore the outdoors through sketching in the garden, creating Japanese Gyotaku prints, Sumie painting, and molding animals out of clay.

Exploring Portraits Session 2 June 6 - 10

Children will create expressive portraits while learning about proportions of the face and famous portrait painters from art history.

Bugs and Creepy Crawlies Session 3 June 13 - 17

Children will connect to insects through drawing, painting, and collage while exploring basic shapes, patterns, and habitats of these amazing creatures.

Art through Stories Session 4 June 20 - 24

Have fun exploring children's literature. Narrative themes and storytelling inspire students to journey through the fantastic world of children's books.

Cartoon Characters Session 5 June 27 - July 1

Invent your own crazy cartoon characters through drawing, painting, and collage while exploring basic shapes, patterns, and environments of these crazy characters.

Ages 9 - 12; 1:00 pm - 3:30 pm

Adventures in Drawing Session 1 May 30 - June 3

Explore a variety wet and dry drawing techniques while discovering your own personal style through mark making. Use your own form of mark making to capture what you see through contour line, gesture, sighting, and blocking in the form.

Mash Up Mixed Media Session 2 June 6 - 10

Create art through mixing a variety of materials. Students will explore shadow boxes, handmade paper techniques, printmaking, and collage while creating wacky mixed media inventions.

Expression in Painting Session 3 June 13 - 17

Explore a variety of painting techniques while learning to push and pull color space and manipulate feelings through color psychology. Students will enjoy creating expressive paintings through watercolor, acrylic, sumie painting, transfers, and oil resists.

Dare to Design Session 4 June 20 - 24

Learn to see the underlying structure of natural and man-made objects and how to organize and construct these in your own artwork. This class introduces students to the basic elements of design through a variety of materials and techniques.
